

## Management commitment to GGL certification requirements

### 1. Commitment by the Management

**Provident Biofuels Pte Ltd (“Provident Biofuels” or the Company)** is committed to procuring products and services that ensure that materials are sourced from legal and well-managed sources. By means of this declaration top-level management is showing its commitments to ensure all requirements from the following standards and related normative documents are met:

#### **Green Gold Label Certification Standard (GGL)**

- GGLS1 chain of custody criteria
- GGLS4 Transaction certificate

Upon request, a copy of this statement will be made available to third parties.

### 2. Access to GGL claim

We are committed to providing transparency to our customers and shall provide access to relevant information regarding the RSB claim to all our customers if they are required to meet legal requirements.

### 3. Environmental responsibility

We are committed to ensuring that products procured that have been or will be certified against an internationally recognized standard that is in line with METI’s requirements for the responsible sourcing of biomass.

### 4. Social responsibility

We are committed to avoiding engaging in or benefitting from controversial business practices, such as, but not limited to:

- Any form of forced labour, including bonded labour, forced prison labour, slavery, servitude, or human trafficking.
- The use of child labour. The minimum age for employment shall not be less than the age of completion of compulsory schooling and, in any case, shall not be less than 15 years in accordance with our Corporate Policy.
- Discrimination on the basis of race, colour, sex, language, religion, political or other opinion, caste, national or social origin, property, birth, union affiliation, sexual orientation, health status, family responsibilities, age, and disability or other distinguishing characteristics.
- Unsafe or unhealthy working environments, including, but not limited to, risk from fire, noise, accidents and toxic substances. Adequate health and safety policies and procedures must be established and followed by all companies in our supply chains.
- Any form of bribery and corruption.

If we become aware that any of these issues are relevant in our organisation or any of our suppliers, we are committed to taking relevant steps to mitigate any such situation.

#### **5. Health and safety**

We are committed to ensure that all necessary health and safety measure are taken. Through these measures we provide a safe and healthy environment for our staff to operate and work in.

#### **6. Quality management**

We will ensure that all relevant staff is trained and competent in carrying out their responsibilities as identified in the relevant GGL manuals. All necessary resources are made available to support the standards and certification requirements including carrying out annual internal audits. The annual audits will be reviewed by management and proposed follow-up will be supported.

#### **7. Legality**

We are committed to sourcing only material that has been produced, processed, and traded in compliance with applicable legislation in the country where the material originates from. We also refer to the legislation and regulations relating the use of biomass as feedstock for the production of electricity and/or heat in Japan, stipulated by the relevant and responsible Japanese authorities.
